### Project Completion status (Filled by Students)

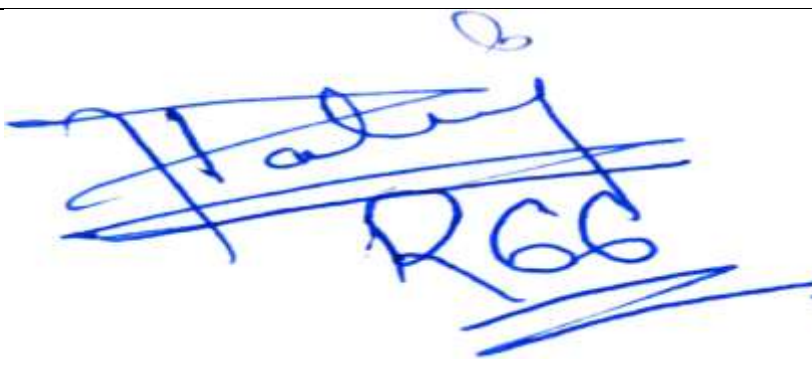

#### Project Phase 2:

- We are done with the whole planning part about the project and the implementation part is to be done soon.
- We have made the chatbot of transport management system on the home page of our project's website.
- We have decided all the modules which we will be including in our website and some of them are: Bus services, Bus schedule, Cab services and so on.
- Lastly we will be connecting all the modules with each other and with the home page as well and all the data will be saved at the backend i.e localhost using php mysql.

### Remark of Co Supervisor

Project is nice and is applicable in the current scenario. They are doing good and in the half way of completing their project.
